My Projects

- **San Miguel District Hospital EMR**
 - It is our capstone project that can handle patient records, bills, and medical history. My role in this project is a fullstack developer.
- **Hospital Appointment System**
 - A Laravel CRUD based hospital appointment system. The system flows according to the patient's and doctor's appointment needs
- **My Portfolio**
 - A web portfolio showcasing my most current projects and abilities. This project also improves my skills in frontend development and my creativity in website design
- **Space Invaders**
 - A Unity 2D game made with C# and Unity. This project is a practice for my game development skills. Through this project, I gained hands-on experience, refining my design and coding abilities.
