PROFESSIONAL EXPERIENCE

OGIS Philippines (formerly Fasttrack Solutions Inc.)

Web Developer

February 2024 – Present

Makati City, Metro Manila, Philippines

- Developed and maintained Smartbooks web application features using a custom PHP framework, JavaScript, HTML, and CSS, with MySQL stored procedures to support efficient data flow.
- Implemented and enhanced a centralized login in the Smartbooks web app, allowing multiple users to access the system via a single URL.
- Redesigned transaction workflows and implemented new menu modules, including Lease Contract Maintenance and data consolidation features, to support client-specific business processes.
- Updated the PHP-based data upload tool to process multiple transaction types, including AP/AR invoices, Journal Entries, Journal Vouchers, and other accounting transactions, improving efficiency and flexibility.
- Developed and integrated Power BI dashboards and paginated reports from MySQL data into the Smartbooks web application, providing insights for Finance, Inventory, Production, and other modules.

Project Alpha Web Corporation Inc.

Associate Software Engineer

April 2023 – December 2023

Guiguinto, Bulacan, Philippines

- Built a dynamic Single Page Application (SPA) for the Project Alpha website with responsive frontend implementation using Sass and Bootstrap, connected to a PHP backend.
- Maintained and debugged the Project Alpha website, resolved frontend tickets and backend PHP issues, converted Figma designs into responsive interfaces using React and Tailwind CSS, and improved the reporting system by customizing PDFs with built-in jQuery DataTable packages.
- Developed and implemented system enhancements, including a dormancy mechanism to flag inactive users and a Nodemailer-based feature enabling potential clients to email HR directly.

Hooli Software

Software Engineer Intern

July 2022 – August 2022

Marilao, Bulacan, Philippines

- Trained as a software engineer in Flutter and Golang, gained system operations experience, and applied Scrum methodology with Jira for task and progress management.
- Implemented star ratings display using a Flutter package and enhanced broker-to-client directions with Google Maps API for the ReadyAgent App, a real estate platform.
